

# Memorandum

MIAMI-DADE  
COUNTY

**Date:** September 20, 2005

**To:** Honorable Chairman Joe A. Martinez  
and Members, Board of County Commissioners

**From:** George W. Burgess  
County Manager

**Subject:** Information for Second Budget Hearing – FY 2005-06 Resource Allocation Plan

Attached are the recommended FY 2005-06 budget and millage ordinances for your consideration at the second budget hearing on September 20, 2005. These ordinances reflect the proposed millage rates approved on July 7, 2005 and September 6, 2005 at the first budget hearing.

The ordinances also incorporate technical changes and adjustments, corrections of scrivener's errors, revisions resulting from Commission actions subsequent to the release of the Proposed Budget, and current estimates of grants for agencies and departments. In addition, cash carryover for proprietary funds has been adjusted where appropriate.

In the memorandum accompanying the budget ordinances presented to the Board at the first budget hearing, I committed to continuing my analysis of certain issues. The results of that analysis, along with requests made by the Board at the first budget hearing are also included for your consideration.

I have scheduled meetings with each of you to review your budget concerns. It is my intention to provide a final report to you prior to the second budget hearing with recommendations regarding the issues raised at our meetings.

## RECOMMENDATIONS

It is customary at this time to provide the Board with a budget update based upon the latest available financial information. The budget modifications that we are recommending at this time are detailed below; however, we will have additional recommendations for the Board prior to the second budget hearing.

### 1. Miami-Dade Police Department – Enhanced Enforcement Initiatives

In the information provided for the first budget hearing we indicated that because of higher than estimated mitigation payments from the contributing municipalities of the Town of Miami Lakes, Village of Palmetto Bay, and the City of Doral, and the annexed areas of Medley and Hialeah Gardens, an additional \$377,000 will be received by the Miami-Dade Police Department (MDPD) in FY 2005-06. As a result of the increased mitigation payments, Unincorporated Municipal Service Area (UMSA) General Fund dollars became available for other departmental enhancements and we informed the Board that a recommendation on the use of those funds would be proposed before the second budget hearing.

The MDPD Proposed FY 2005-06 Resource Allocation Plan included an allocation of \$13.34 million for the continuation of the targeted crime suppression activities referred to as Enhanced Enforcement Initiatives (EEI). The proposed activities include continued special holiday enforcement, robbery intervention, gang enforcement, driving under the influence check points, and warrant sweeps. I recommend increasing funding for EEI activities by \$776,000 to \$14.116 million to support the same service levels as in the current fiscal year. The additional funds allocated will cover the increased costs of personnel. The increased mitigation payments will be

used to offset the funding increase to EEI. The remaining amount (\$399,000) will be provided from the public safety reserve in the UMSA General Fund.

The additional funding would assist the department in increasing the district office crime suppression activities at Northside, Northwest, Kendall, Intracoastal, Hammocks, Midwest and Cutler Ridge by \$210,000. The balance of the funding (\$566,000) would be utilized to target robberies in the unincorporated areas through robbery intervention details (RID). RID operations have been beneficial because statistics have shown that when robberies are addressed and reduced, other crimes are reduced as well, including larceny, auto theft, and illegal drug use. These additional RID operations will be directed to specific areas of the County in conjunction with a process known as analysis driven enforcement (COMPSTAT – Computerized Statistics). Analysis driven enforcement will provide direction for the department to conduct proactive operations in areas being targeted during the year. The allocation would support 13 additional robbery operations per month during FY 2005-06.

## **2. Senior Advocate**

As part of the changes to the FY 2005-06 Proposed Resource Allocation Plan, I am recommending the creation of a Senior Advocate position (\$115,000). As you know, the Mayor requested this position in his Budget Message in March, to focus on the many issues and needs of our elderly population. The Senior Advocate will be responsible for identifying and advocating for elderly services such as transportation, meal programs, housing, and referrals to agencies that provide assistance to the elderly. In addition, the Senior Advocate working out of my office, will function as a coordinator working closely with the Office of the Mayor, the Board of County Commissioners, state and federal agencies and community-based organizations throughout the community that provide outreach and referral services to seniors. The Senior Advocate will assist in pursuing legislative initiatives at both the state and federal levels to improve and enhance the quality of life for the elderly in Miami-Dade County.

## **3. Life Support Initiative Assistance Program**

The Community Action Agency (CAA) administers several programs that provide financial assistance for utility bills, including the Low Income Energy Assistance Program (LIHEAP) – a federally funded program providing financial assistance in the form of credits to energy bills for clients that meet certain income guidelines, the Emergency Food and Shelter Program (EFSP) – a program funded by the United Way to provide one-time assistance for payment of utility bills for eligible applicants, and the Life Support Initiative Assistance Program – a program that provides water and sewer payment assistance to eligible municipal retail customers whose water service is in jeopardy of being terminated or has been terminated for non-payment, and whose water and sewer utility rates have increased 30 percent or more. To address this problem, the Life Support Initiative program provides water assistance to approximately 1,265 customers annually.

In FY 2002-03, the Board allocated \$1 million for the Life Support Initiative program and CAA has provided services from the original allocation totaling \$200,000 in FY 2002-03, \$391,000 in FY 2003-04, and \$349,000 in the current year. To continue providing this service, I am recommending the allocation of \$350,000 from the general fund for one additional year of assistance.

## **4. Community-Based Organizations**

The FY 2005-06 Proposed Resource Allocation Plan includes funding for the Mom and Pop Grant program (\$1.3 million) and the Discretionary Reserve Funds (\$4.2 million). Attachment A

details the community-based organization (CBO) funding recommendations through the many County-supported competitive processes. The attachment also corrects a scrivener's error related to the allocation for the Miami Mardi Gras event. This funding was to be divided between two agencies but was inadvertently included within one agency's recommendations. As part of the revised recommendations, the Haitian American Foundation Miami Mardi Gras allocation should be funded at \$175,000 and the Miami Carnival Mardi Gras event at \$200,000.

The Countywide and District Specific In-Kind Reserve was established to reimburse general fund-supported departments for the provision of fee waivers and in-kind services to organizations holding community events and is continued at the same level in FY 2005-06. The Reserve's capacity is at \$750,000, of which \$613,500 is set aside for countywide special events and \$136,500 for district specific events (divided equally among the members of the Board at \$10,500 per district). Reimbursement of funds from the reserve is performed on a two-thirds basis to general fund-supported departments only. In other words, general fund-supported departments will be reimbursed 67 cents per every dollar spent. It is strongly recommended that funding from this reserve be solely used for the reimbursement of fee waivers and in-kind services provided by general fund supported departments, and not for direct cash allocations, in order to maximize the use of this reserve. I recommend that the unexpended funds from the FY 2004-05 In-kind Reserve be carried forward to FY 2005-06. By approving these ordinances and this accompanying memorandum, these funds will be carried over.

#### 5. General Fund and Capital Outlay Reserve Adjustments

### General Fund and Capital Outlay Reserve Adjustments

(Dollars in Thousands)

	<u>CW</u>	<u>UMSA</u>	<u>TOTAL</u>
<b><u>Revenue Adjustments</u></b>			
No revenue adjustments	0	0	0
<b>Total Revenue Adjustments</b>	<b>\$0</b>	<b>\$0</b>	<b>\$0</b>
<b><u>Expenditure Adjustments</u></b>			
Capital Outlay Reserve	(965)	(30)	(995)
Miami-Dade Police - EEI	0	400	400
Public Safety Reserve	0	(400)	(400)
Senior Advocate	115	0	115
Miami-Gardens Head Start Center	500	0	500
Vitacourse at Highland Oaks Park	0	30	30
CAA Life Support Initiative	350	0	350
<b>Total Expenditure Adjustments</b>	<b>\$0</b>	<b>\$0</b>	<b>\$0</b>

The recommended increases to general fund supported expenses are being funded from Capital Outlay Reserve funds made available by eliminating the General Services Administration - Stephen P. Clark Center Furniture Replacement project. Eliminating this project will make available \$995,000 to fund the Senior Advocate, the Miami Gardens Head Start Center, the Vitacourse at Highland Oaks Park, and the Community Action Agency Life Support Initiative. Both the Miami Gardens Head Start Center and the Vitacourse at Highland Oaks Park are recommended for inclusion in the FY 2005-06 Budget in the capital updates section of this memorandum. The remaining funds are recommended to be allocated to the Repair and Renovation reserve within the Capital Outlay Reserve. Additionally, a reduction of \$400,000 to the Public Safety Reserve to fund EEI activities is recommended.

## 6. Water and Sewer

Rate adjustments that were recommended to the Board at the first budget hearing have been revised so that "lifeline" retail customers, who use up to 3,750 gallons of water per month, will continue under the current rate structure. Administrative Order 4-110 (Attachment Item F) reflects this change. This adjustment will also affect the average residential consumer of water and sewer service (defined as one using 6,750 gallons per month). In the previous analysis, the average bill was to increase by 8.87 percent (\$2.55 per month). The revised proposal reduces the monthly increase to \$2.22, bringing the average monthly bill to \$30.98 from \$28.76, which is a 7.72 percent increase.

The effect on the Water and Sewer Department's (WASD) wholesale customers will be the same as reported in the information for first budget hearing memorandum. The Hialeah/Miami Springs combined rate will increase to \$3.00, from \$2.42 per thousand gallons. Other municipalities' wholesale charges will increase to \$3.17 from \$2.55 per thousand gallons. The change in the monthly bills for consumers within the cities served by WASD's wholesale customers would vary depending on changes to the rate structures implemented within each municipality.

Impact of Recommended WASD Rate Adjustments		Percent Change	Impact Amount
Budgeted Revenue Increase		15.75%	\$58.4 Million
Total Funding for Renovation and Rehabilitation Projects (including revenue increases)			\$65 Million
Total Transfers from Reserves Budgeted (including revenue increases)			
Rate Stabilization Fund			\$33.5 Million
General Reserve			\$20 Million
<b>Customer Impact</b>			
Retail Customers (total cost at 3,750 gallons per month)		0.00%	\$0
Retail Customers (total cost at 6,750 gallons per month)		7.72%	\$2.22
Wholesale Customers (rate per 1,000 gallons)			
Hialeah / Miami Springs			
Water		41.67%	\$0.30
Sewer		16.47%	\$0.28
Other Municipalities			
Water		40.00%	\$0.34
Sewer		16.47%	\$0.28
Proposed Future Annual Revenue Increase Based on Maintenance Index		5.50%	

It is projected that the rate stabilization fund balance will be \$43.552 million at the end of FY 2004-05, and the general reserve will be \$36.679 million. There will also be an additional \$43.682 million which is being held in reserve per the bond ordinance, for a total reserve balance at year end of \$123.913 million. At the end of FY 2005-06, it is anticipated that this total will be \$106.390 million, which is sufficient to meet all coverage requirements. With the rate increases and annual adjustments, as presented, it is anticipated that reserves will remain healthy until the end of FY 2008-09. However, without the rate increases, the balance in reserve would be \$47.171 million at the end of FY 2005-06, which would meet the bond ordinance requirement, but the minimum reserves recommended by the Bond Engineer, Malcolm Pirnie, Inc., will not be met, which may impact bond ratings.

Because the administrative reimbursement, which is determined based on a set percentage of proprietary departments' budgets, is adjusted due to the increase in the WASD budget, an additional \$1.475 million will be transferred to the general fund. However, to avoid impacting the department, an equivalent reduction to the equity return payment to the general fund will be made, decreasing the equity return payment to \$22.868 million from \$24.343 million as

originally proposed. This payment, which represents 5.33 percent of operating revenues, is a 30.56 percent decrease from the FY 2004-05 rates of 7.67 percent. In effect, the equity return payment to the general fund is being phased out effective June 2006. The overall transfer to the general fund from the continuation of the equity return and one administrative reimbursement from WASD will remain the same as in the Proposed Budget.

#### **7. Department of Human Services and Juvenile Services Department**

The State of Florida has reduced statewide funding from the Florida Department of Law Enforcement "Byrne Grant" by 20 percent. Grant matching funds provided by the Miami-Dade Police Department through the Local Enforcement Trust Fund are also no longer available. The impact to the Department of Human Services (DHS) in FY 2005-06 is \$215,000 and four positions. The loss in funding will result in reduced administrative support to the Addiction Services Board and a reduction in services to approximately 80 men who have been identified as domestic batterers and substance abusers. The Juvenile Services Department's FY 2005-06 budget will be reduced by \$84,000, which will have an impact on the Department's ability to continue development of the Juvenile Assessment Center Information System.

The Florida Department of Children and Families will increase funding in FY 2005-06 by \$245,000 for Refugee Youth and Family Services, Haitian Refugee Youth and Family Services, and the Employment Services Training Program in DHS. As a result, seven positions originally recommended for reduction in the FY 2005-06 Proposed Resource Allocation Plan are recommended for inclusion in the DHS' Table of Organization. This increase in funding from the State will allow DHS to maintain current service levels in FY 2005-06.

The Child Development Services Division in DHS has assumed the responsibility for the screening, billing, and collection functions historically performed by an outside contractor. Since then, the County's Finance Department has also assumed responsibility for the review, approval and processing of payments, and direct deposit to more than 1,400 childcare providers. The FY 2005-06 Proposed Resource Allocation Plan includes funding for five positions in DHS to perform these functions. It is recommended the Board approve the inclusion of these positions which were inadvertently omitted from the departmental Table of Organization.

#### **8. Procurement Management / Miami-Dade Transit Agency**

The Department of Procurement Management (DPM) continues to implement an in-depth, step-by-step review of all procurement processes, including administrative and new legislative requirements to recommend measures to reduce procurement cycle times for various types of procurements. The Model Procurement Code for local governments, based on the American Bar Association guidelines, will continue to be the guide for this review. I will report our progress regarding procurement process improvements to the Board by the end of this calendar year. Initial findings of the in-depth review have determined that there is an immediate need for seven additional positions beginning in FY 2005-06. Six of these positions are necessary to reduce the workload of existing staff and provide administrative support to front-line purchasing staff. One position will support the needs of vendors wanting to do business with the County and reduce waiting time associated with the vendor registration process. Funding for the additional positions (\$502,000) will be covered by additional carryover funds realized from User Access Program revenue. Additional resource needs that arise as a result of on-going reviews or changes in the procurement workloads will be addressed as part of the mid-year budget adjustment as necessary.

Additionally, Miami-Dade Transit (MDT) and DPM have agreed that an additional two positions will be required to process procurement workloads associated with the People's Transportation Plan (PTP). It is recommended that two additional positions be included in the DPM Table of

Organization beginning FY 2005-06. Funding will be provided by the PTP, and as a result, MDT requires an adjustment of \$132,000 to cover the expenditures associated with the positions.

## **9. Employee Relations Department**

Over the past few years, MDT has been funding 16 positions in the Employee Relations Department (ERD) for payroll and testing and validation support activities associated with bus operators. However, a technical adjustment is required to reflect those positions in the ERD Table of Organization, which had been inadvertently omitted in the FY 2005-06 Proposed Resource Allocation Plan.

## **10. Aviation**

The Miami-Dade Aviation Department (MDAD), under the supervision of its newly appointed Director, Jose Abreu, re-evaluated its operating budget needs and is requesting the FY 2005-06 Budget be increased by \$27.189 million to \$593.689 million. Passengers at Miami International Airport are expected to increase to 15.529 million, which are 229,000 more travelers than previously projected. The revised budget, approved by the Miami Airport Affairs committee (MAAC), reflects increased rates for Aviation fees (\$8.182 million), including new valet and remote parking fees, revised fees for concourse use, ticket counter usage, and ticket counter displays. The rates for manual Common Use Terminal Equipment (CUTE) ticket counters will also be revised as will the hourly fee for special use area, including Transit without Visa (TWOV) Lounges, International-to-International (ITI), Lounges, ITI Baggage, and Baggage Make-Up (BMU) Ramp. The Security and Safety Division is proposing to establish new Security Violation Fees to encourage compliance by individuals and companies with the airport security rules, regulations, policies, and procedures. The fees proposed are \$100 for first offenses, \$250 for second offenses, and \$500 for third offenses. The estimated revenue based upon violations for the last year would be \$50,000 with the expectation that this fee will act as a deterrent (Attachment J to Agenda Item F details these fees).

Revenue from landing fees will be reduced to \$85.008 million from \$91.936 million in the FY 2005-06 Proposed Resource Allocation plan to \$2.77 per ton, substantially lower than the \$2.93 per ton projected at mid-year. Management agreements, which comprise 46.3 percent of MDAD's commercial operations, will increase by 11 percent to \$66.518 million from \$60.098 million. The parking garage management agreement alone will generate \$2.829 million of the \$6.420 million increase.

Adjustments to appropriation levels in the Proposed Budget will occur mostly in the areas of personnel costs, outside contractual services, utilities, management agreements, and cash reserves. The Proposed Budget incorporated the reduction of 134 positions, but after additional review it is recommended that 30 of the positions proposed for reduction be included in FY 2005-06 as part of a department-wide restructuring. The department will implement a new staffing configuration as divisions are being restructured into different operational groups.

The Miami-Dade Aviation Department and Miami-Dade Fire Rescue (MDFR) have entered into a Memorandum of Understanding (MOU) for services provided at Miami International Airport and Opa-Locka Airport. The MOU provides for transfer of 129 employees currently reflected on the MDAD Table of Organization and payroll effective October 1, 2005 to MDFR. MDAD will reimburse MDFR for all personnel costs on a bi-weekly basis and MDAD will continue providing station maintenance, paying for all utilities, and purchasing all capital equipment. MDFR will continue providing station operating supplies and management oversight as required in the administrative reimbursement. The proposed budget for the MOU is \$16.294 million. The position count will be revised to 1,642 to account for the transfer to MDFR and restructuring.

### **11. GSA Vehicle Trust Fund Purchases**

The General Services Administration expenditure authority in the Vehicle Replacement Trust Fund is being increased by \$4.754 million. The increase is the result of revising the vehicle purchasing schedule to include MDR and Public Works Department (PWD) vehicle replacement needs. The MDR request for vehicle replacement is \$3.5 million greater than was anticipated when the fleet replacement proposed budget was completed. Additionally, PWD is budgeting an additional \$1.254 million for stormwater utility vehicle replacements approved by the Board at the first budget hearing.

### **12. Causeways Pro Forma**

During the summer, I requested staff from the PWD and the Office of Strategic Business Management create and analyze a pro forma for the County's maintained causeways. More specifically, I wanted to make sure that the toll increases included in the FY 2005-06 Proposed Resource Allocation Plan were appropriate and sufficient to carryout the necessary capital investments, as well as maintain the operations of the causeway system. Staff has revised projections based on the number of riders and the proposed increases to establish a reasonable and conservative projection for future revenues. The revised figures include projections based on the cash toll increases approved by the Board in the first budget hearing. The cash toll adjustments represent a 25 percent increase at the Rickenbacker Causeway and a 33 percent increase at the Venetian Causeway based on the value of the recommended \$0.25 increase on the existing two-axle rate and adjusted proportionally on all other axle rates. However, the rates for C-Passes for residents and non-residents paid by patrons who access the Venetian and Rickenbacker Causeways on a more frequent basis will not be increased at this time. The revised pro forma also includes annual payments of \$330,000 beginning in FY 2005-06 to the Village of Key Biscayne as part of the County's commitment to reconstruct and beautify Crandon Boulevard from the end of Crandon Park to the entrance of Bill Baggs State Park, within the municipal boundaries of the Village.

In addition, I asked that staff look into the validity and need for all required capital expenditures, including the proposed interoperability project that is estimated to cost \$3.5 million. The current system used by C-Pass users is outdated and becoming more difficult to maintain and repair with time. Staff has determined that it is time to start considering a new toll collection system to replace the current C-Pass technology. Staff from PWD has been working with the Florida Turnpike Authority and the Miami-Dade Expressway Authority (MDX) to solidify project figures for a interoperability project; however, the department must evaluate the effectiveness of acquiring new technology versus other toll collection systems, including those using barcodes. A report to the Board will be presented at a later date with the department's recommendation for replacing the current C-Pass system.

The FY 2005-06 Proposed Budget will require a technical adjustment of \$400,000 to reduce operating revenues and expenditures based on the new projections and to budget revenues at 95 percent as required by state law, which was inadvertently omitted in the Proposed Resource Allocation Plan.

### **13. Capital Budget Updates**

As in the information provided for the September 6, 2005 meeting, several capital projects require further updates to be properly eligible for Board approval through the County's Expedite Ordinance. It is recommended that the following changes be made to the FY 2005-06 Proposed Multi-Year Capital Plan.

The Park and Recreation Department is supplementing the Matheson Hammock Park project to include renovations of the telecommunications cables that have experienced degradation from water intrusion. Road impact fee funding will be used to repave the access road to the Park (\$383,000). The Department will request that the Safe Neighborhood Parks Board provide funding that was programmed for repaving to be used to replace the cables.

The Corrections and Rehabilitation Department project to improve fire protection at the Turner Guilford Knight Detention Center, the Training and Treatment Center, and the Metro West Detention Center is expected to cost approximately \$1.8 million less than was originally anticipated. The Sunshine State Loan proceeds that were programmed for this project will instead be used to bring the Stockade facility into compliance with the 40-year recertification building code requirements.

The City of Miami Gardens has requested several improvements in conjunction with the new Miami Gardens Head Start Center including, a 900 foot linear masonry wall. Staff is continuing to estimate the cost of these improvements. To begin this project, \$500,000 will be included in FY 2005-06 from the Capital Outlay Reserve. Additional funding may be required in FY 2006-07.

It is recommended that the Park and Recreation Department Capital Plan include \$30,000 for the development of a Vitacourse at Highland Oaks Park to replace Community Development Block Grant (CDBG) funding since the project has been deemed ineligible for CDBG funding.

The following table summarizes the position adjustments approved at the first budget hearing, the UMSA purchase package, and recommended above.

#### 14. Position Adjustments

<u>Department</u>	<u>FY 2005-06 Proposed Budget</u>	<u>Adjustments at First Hearing</u>	<u>UMSA Purchase Package</u>	<u>Recommended Adjustments</u>	<u>Revised FY 2005-06 Proposal</u>

## **INFORMATIONAL REPORTS**

### **1. Mosquito Control**

At the first budget hearing, several Commissioners raised concerns regarding the number of aerial missions being proposed, the associated costs, and the need for additional education to inform residents on how to protect themselves from mosquitoes. The recommendation approved by the Board at the first budget hearing includes additional aerial spray missions to ensure that residents see an increase in mosquito control activities. Staff carefully projected the number of aerial and land missions expected to be performed by the end of the current fiscal year and used that service level as a base for next fiscal year. In addition, the proposed recommendation included funding for one additional position that will enhance the Department's surveillance efforts by 1,600 inspections, as well as the establishment of a storm drain mosquito abatement program.

Commissioner Gimenez raised concerns regarding the effectiveness of the helicopter versus the use of the airplane contract for aerial spraying. At the request of the Commissioner, the department has reanalyzed the costs associated with helicopter aerial missions. In the report attached to the information for first budget hearing memorandum, each helicopter mission was estimated at \$30,000. However, there are fixed costs included in the base figure that do not change with an increase in the number of missions performed. Based on the revised estimates, the recommended \$300,000 approved by the Board at the first budget hearing provides for an additional 25 missions for a total of 35 helicopter missions at an average cost of \$19,000. The original report stated that we would be able to provide a total of 22 helicopter missions in FY 2005-06. While the Department recognizes that on average, each helicopter mission sprays approximately 15,000 acres as compared to each contracted airplane mission (\$20,000) with an approximate spraying capacity of 23,000 acres, the two methods are each effective under different scenarios. Based on the revised plan, 35 helicopter missions will be able to spray approximately 519,000 acres in contrast to the 805,000 acres from 35 airplane missions. Eliminating the use of the helicopter missions recommended in the plan and allocating the resources towards additional plane contractor missions is not recommended by the Department. In the current year, the Department projects to use the helicopter to perform 15 to 20 missions that cannot be as effectively performed by a plane. Prior to deploying any resources to control mosquitoes, staff identifies the location, the size of the area infested, and the magnitude of the infestation and in return determines the appropriate method to combat mosquitoes. The use of the helicopter is most effective when staff sees the need for aerial spraying in a particular area that cannot be achieved by plane due to its inability to hover. Additionally, when smaller geographical areas are in need of aerial spraying, it is more effective to utilize the helicopter.

To date, this mosquito season has been more active than others and it is anticipated that 35 to 45 aerial missions will be deployed. The recommended enhancement will provide 57 additional missions, for a total of 70 aerial missions, which the Department believes is a sufficient level of service. However, given the unpredictability of any given season, we are committed to provide additional resources should the need arise. For that reason, I recommended and the Board approved as part of the information for the first budget hearing a \$200,000 reserve fund for any unforeseen events.

In addition, the Mosquito Control helicopter is used for mosquito spraying during the months of May through October. This is the case for helicopters used for mosquito control throughout Florida. Flights made from November through April are performed weekly for proficiency purposes and to locate possible mosquito breeding areas that are inaccessible by roads. The helicopter will always be available in case of emergencies to the County and other neighboring

counties. In addition, the Public Works Department (PWD) will contact Police, Fire Rescue, the Seaport, and other agencies to explore multi-agency agreements that may be implemented.

Lastly, Commissioner Sorenson requested that the Department focus on marketing and education on mosquito control. In FY 2004-05, approximately 50,000 mosquito informational brochures were distributed to residents during our residential inspection program that is conducted countywide from November through April. The mosquito flyer is two-sided and provides information to homeowners as to how they can prevent mosquito breeding on their property. The reverse side of the flyer provides information on West Nile virus and recommendations for its prevention.

PWD staff has also been distributing information at Town Hall meetings and other events. During the season, our mosquito control experts are highly sought after by print and broadcast media outlets – both local and national – for interviews, which provide additional in-depth information to residents and promote the County's mosquito control services. Thanks to this proactive relationship with local media, who are sent regular mosquito control-related press releases and media advisories, residents are kept informed as to upcoming spray missions, as well as contact information to request spraying and/or inspections. A 30-second video public service announcement produced in 2004 as part of the County's Promotional Spot Program, aired extensively on Miami-Dade TV during 2004 and will be rescheduled for regular airing on MDTV.

PWD will work with Team Metro so that informational flyers are provided to over 500 Homeowner Association and community meetings and events and for code enforcement officers to leave information door hangers on mosquito protection.

## **2. Fire Rescue Light Fleet**

The decision to keep the Miami-Dade Fire Rescue (MDFR) light fleet maintenance operation at General Services Administration (GSA) is based on data that indicates that MDRF will incur higher costs if the equipment were to be maintained by MDRF.

The MDRF plan for taking over the light/medium fleet maintenance assumes that GSA will donate building six (a 6,240 square foot building) within the maintenance complex located at 6100 SW 87<sup>th</sup> Avenue (Shop 2) to MDRF. GSA currently services 1,854 light/medium duty vehicles at the Shop 2 complex, including 403 vehicles belonging to MDRF. The facility also serves as the centralized point from where GSA conducts vehicle auctions, pool vehicle services, and countywide auto bodywork and modification coordination. GSA uses building six to temporarily store motorcycles to be auctioned, police vehicles needing secure storage after being involved in an accident, a lunch room for facility employees, equipment storage, bathrooms, preparation of equipment to be auctioned, and other functions as needed. GSA does not have another facility to house these functions in the event that they were to be displaced. As a result, if the building is turned over to MDRF it will have an impact on GSA operations.

To implement a light/medium duty vehicle maintenance program, MDRF would need to purchase an existing facility or build a new one and make additional capital expenditures required to fit out the building as a maintenance shop. The acquisition of such a maintenance facility would cost upwards of \$1.7 million. If such a capital investment were to be financed over twenty years, it would require an additional \$60,000 per year in debt service to the MDRF fleet maintenance operation. In effect, the additional debt service negates any cost savings projected in the MDRF proposed Fleet Management plan that was submitted to the Performance Improvement Division of the Office of Strategic Business Management in November 2004.

The data also indicates that when adjustments are made to the MDFR plan to incorporate expense data for the cost of outside contract work, GSA fleet maintenance charges are a less costly option even without the cost of the debt service payments for the building. These expenses include contract work like towing, glass replacement, major engine and transmission overhaul, vehicle bodywork, special order modifications, and repair parts. The MDFR labor cost estimate for the light/medium duty vehicle shop exceeds the actual FY 2003-04 GSA labor cost by \$238,000, and the FY 2004-05 projected labor cost by \$162,000. This level of added expense is greater than the MDFR presumed savings that could be achieved if MDFR did not have to pay the premium on the contract work and parts.

GSA is committed to improving customer service. Staff is conducting internal reviews and continues to work with personnel in the Office of Strategic Business Management Performance Improvement Division to identify opportunities for service enhancements. The Fleet Management Division is implementing best-practices standards and technology solutions that will improve customer communication and service delivery. Starting in October 2005, Fleet Management will streamline its billing practices to make them easier to understand and compare with the private sector, including the implementation of standard charges for common repairs. Staff at the maintenance shops will also provide estimates for job completion on all light equipment service requests and guarantee overnight turn-around for all scheduled "A" level preventive maintenance services ("A" service required every 3,000 miles). To enhance customer communications, GSA IT staff worked on the creation of a Fleet Management web-page where customers have the ability to schedule preventive maintenance services, receive appointment confirmation, and check on the status of their vehicle. The web site is coming on-line in October 2005.

### 3. 9-1-1

The Miami-Dade Police Department's Communications Bureau operates the 9-1-1 Call Center and currently manages a call volume of 2.4 million calls per year and an average call answer rate of ten calls per hour per officer, with a budgeted staffing level in the FY 2005-06 Proposed Resource Allocation Plan of 101 complaint officers and 87 dispatchers. The most recent six month average of call volumes and call handling include 1.036 million calls, with an average waiting time of 6.5 seconds for emergency calls and one minute 52 seconds for non-emergency calls. The standard of best practices is that a complaint officer should take 10 calls per hour which includes time for continual care and follow-up with the caller.

The FY 2005-06 Proposed Resource Allocation Plan includes funding to hire 25 additional 9-1-1 positions. These positions should assist in the reduction of mandatory overtime. However, the department has expressed further concerns regarding appropriate staffing support and pending physical environment improvements. As a result, I have instructed the department to prepare a comprehensive action plan that evaluates current and future staffing levels, salary and benefit issues, and overall infrastructure needs. Based on the plan, which I expect to be completed in 30-60 days, specific actions will be taken to help attract and retain the required staffing levels. Our plan will be presented to the Board when completed. In the meantime, the department has made physical improvements such as the flooring of common areas, painting of the interior walls, and new furniture for staff. Historically, the Communications Bureau has been consistently impacted by high attrition rates. With the prospect of 20 additional working stations for the complaint officers and dispatchers being installed at the Annex by December 2005, MDPD expects a direct correlation to improving the retention rate of staff.

The implementation of the new AVAYA 9-1-1 switch is on-going in conjunction with the Call Center renovations. The advancement in technology will increase the capability of in-bound calls received by complaint officers. The upgraded switch, which is expected to be completed by

December 2005, will double the capacity. Process improvements that have been implemented already include the cross training of police records specialist who provide clerical support to the compliant officers during peak hours. The deployment of 1,274 Mobile Computer Units to field personnel in both Police and Investigative Services will also impact service improvements. The Premier Mobile Data Computing (PMDC) units have been deployed and operational for approximately the last 18 months. These units provide access for officers to initiate needed subject and vehicle checks from within the patrol vehicle, thus eliminating the need to engage the dispatcher to initiate the request on the Florida Department of Law Enforcement (FDLE) system. The new Motorola CAD system utilized by the 911 Call Center was implemented August 23, 2005. The system has been operational and has performed extremely well even through the most recent hurricane. The department continues to work with the vendor to refine the system.

#### 4. Public Health Trust

Commissioner Jordan has introduced a resolution requesting the development of a multi-year plan to provide financial relief to the Public Health Trust (PHT). It is our intent to work closely with PHT staff to develop a plan to gradually shift certain costs that are appropriately our responsibility back to the County.

In the past two years, the County has been actively involved in providing financial support to the PHT which in return has lead to an improvement in the PHT's financial position. Some of these initiatives include: 1) financing and assumption of debt service payments for planned capital investments of up to \$55 million in FY 2004-05 and an additional \$30 million in FY 2005-06; which in fact made funds available to reduce operational deficits; 2) assuming \$25 million of insurance deductible liability on an annual basis; 3) the addition of property insurance coverage to the County's insurance policy, resulting in recurring annual savings of \$1.5 million; 4) the issuance and backing of bonds worth \$300 million to refinance current debt and finance new capital projects which results in net present value savings of \$7.0 million in financing costs over 23 years; and 5) the timing of payments for health insurance and workers compensation to lessen the effects of fluctuating cash flows. As stated in my information for the first budget hearing, and as illustrated in the table below, through County support and their own aggressive initiatives the PHT has been able to substantially reduce anticipated operational deficits.

Fiscal Year	Estimated Deficit Before Initiatives		Revised Year-End Operating Balances	
2002-2003	N/A		(26,811,000)	1
2003-2004	(120,983,000)	2	(85,159,000)	1
2004-2005	(143,050,000)	3	1,239,000	4
2005-2006	(143,095,000)	5	20,040,000	6

1. Actual year-end audited balance
2. Unaudited year-end projection
3. Budget projection as of May of 2004
4. Projected year-end balance as of September 2005
5. Budget projection as of May of 2005
6. Estimated year-end balance as of September 2005

All of the financial assistance provided to the PHT is in addition to the statutorily required Maintenance of Effort (MOE) which is budgeted at \$134.561 million in FY 2005-06, an \$18.017 million increase from FY 2004-05. The Board is reminded that any adjustments to general fund revenues, including millage reductions, impact the MOE payment.

The Trust has approved a balanced budget for FY 2005-06 with an estimated positive operational year-end balance of \$20 million. Similar to the County, labor negotiations are ongoing for FY 2006-07 and results will be reported to the Board when they are finalized. However, as part of their FY 2005-06 Proposed Budget, the PHT Fiscal Affairs Committee recently voted not to fund the Healthy Kids match (\$2.7 million). To mitigate the impact on Healthy Kids participants, the PHT is proposing to notify all parents of non-Title XXI children currently covered in the Healthy Kids program (approximately 1,200 children), giving them a list of the primary care centers in the area that are available to them, including all federally qualified health care centers in the County, and providing the phone number to the PHT outreach program to assist them in selecting the right site. The PHT anticipates that this approach would cost the PHT considerably less than the local match since the children would be absorbed into programs that already exist, including non-Public Health Trust health centers, and are serving the community. Many of these children already receive care at these centers through the Healthy Kids program. The children would receive the same care they receive now through the Healthy Kids Program, including immunizations, dental care, preventive care, check-ups and assistance with other social needs.

We will continue to work very closely with the PHT in developing a realistic multi-year financial plan that addresses current fiscal concerns and at the same time minimizes immediate impacts to the County.

#### **5. Corrections and Rehabilitation Department**

At the first budget hearing, Commissioner Sosa expressed concerns regarding funding in the FY 2005-06 Proposed Resource Allocation Plan for overtime in the Corrections and Rehabilitation Department. During the budget development process, staff from Corrections and Rehabilitation and the Office of Strategic Business Management (OSBM) performed a comprehensive analysis regarding staffing needs. The analysis took into consideration departmental attrition, the usage of leave time, and training. As a result, the FY 2005-06 Proposed Resource Allocation Plan increases overtime by \$4.7 million over the current year to \$12.5 million, which includes costs associated with sworn officers who are required to attend mandatory state certification training (\$872,000). Corrections and Rehabilitation also conducts other essential trainings such as Promotional Supervisory Training, and training required to maintain accreditation of three Department facilities by the American Correctional Association. The Promotional and Accreditation trainings are conducted in-house by Field Training Officers during regular working hours, in an effort to reduce overtime expenses.

Additionally, the FY 2005-06 Proposed Resource Allocation Plan includes funding for the Department to aggressively recruit and hire state-certified officers and to recruit trainees to fill the four scheduled Correctional Officer Training Academy classes, and reduce the reoccurrence of higher than anticipated vacancy levels and the high usage of overtime experienced in the current year.

Subsequent to the first budget hearing, the department informed OSBM that additional positions will be needed in FY 2005-06 to further support recruitment efforts and help reduce overtime usage. Additionally, after the release of my FY 2005-06 Proposed Resource Allocation Plan, the department was notified of revised state legislation, which mandates a 180-day limitation period for disciplinary action investigations for sworn correctional officers. As a result, additional positions may be required to comply with this requirement. Staff from Corrections and Rehabilitation and OSBM will continue to work to determine the appropriate funding and staffing levels for these additional requirements. Any additional funding required will be adjusted at mid-year.

## 6. Fuel and Electricity Costs

In recent weeks there has been concern nationwide regarding the ever-escalating cost of fuel. In addition, the Board is aware that Florida Power and Light is proposing to increase commercial bills by an additional 25 percent beginning in January 2006. If current fuel prices continue to increase, and the Florida Public Service Commission approves the rate increase, will be significantly impacted both the general fund and proprietary department's budgets. To offset these potential increases, I have asked staff from the various departments to begin identifying potential operational efficiencies. In addition, we will be looking at implementing a countywide program to begin reducing electrical and fuel consumption costs. I have also asked staff to review the availability of fuel reserves to preserve County operations, and the budgetary impact of these fluctuations. Recognizing the need to be prepared, the Board approved my recommendation to increase the energy reserve by \$1.194 million to cover these expenses within general fund supported departments.

## 7. Seaport Security Fee

The department presented a report to the Community Empowerment and Economic Revitalization Committee on Friday, September 16 in response to issues and concerns raised by the Board at the first budget hearing regarding the seaport security fee. We will be working with the cruise and cargo industries as well as the Coast Guard, the FDLE and other stakeholders to carefully review the Seaport's security requirements and the appropriate levels and delivery methods for such services. A final recommendation regarding the implementation of any security fee will be provided to the Board within 60 days. It would be my intent to recommend any required and agreed upon security fee to be effective at the beginning of the calendar year in 2006. In the meantime, the Seaport budget will be revised by \$2.308 million to include changes to cruise schedules (\$1.072 million), deferral of a security surcharge fees (\$1.236 million), adjustments to security and other facility expenses (\$2.692 million) and adjustments to debt services payments (\$5 million).
